This product is NOT classified as hazardous according to 29 CFR 1910, amended to conform to the United Nations' Globally Harmonized System of Classification and Labelling of Chemicals (OSHA / GHS); SOR/88-66, the Canadian Controlled Products Regulations (CPR); and/or NOM-002-SCT-2003 (Mexico). However, vegetable oil (in mist form) is known to be listed as an OSHA 29 CFR 1910.1000 Air Contaminant. Occupational exposure limits are subsequently provided in section 8 of this SDS.

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

**Contact Manufacturer:**
Sunnyside Corporation  
225 Carpenter Avenue  
Wheeling, IL 60090  
800-323-8611

**Emergency response telephone number:**  
Chemtrec 1-800-424-9300 (CCN 1635)

**Use of the Substance / Preparation:**
For Wood Treatment

**Hygiene Measures:**
Keep out of the reach of children.

**First Aid Measures:**
If inhaled: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen.

**Environmental Precautions:**
Do not release to the environment. Contain spill in an impermeable container. Dispose of according to regulation requirements.

**Spill Procedure:**
Neutralize with chemical cleanser. Clean up and dispose of as hazardous waste.

**Precautions for Disposal:**
Do not mix with other wastes.

**Handling and Storage:**
Store in a cool, dry, ventilated area.
4. FIRST AID MEASURES

Description of first aid measures
General Advice  When symptoms persist or in all cases of doubt seek medical advice.
Eye Contact   Rinse thoroughly with plenty of water, also under the eyelids.
Skin Contact  Wash off with warm water and soap.
Inhalation    Move to fresh air in case of accidental inhalation of vapours or decomposition products.
Ingestion     Not for human consumption. Clean mouth with water and afterwards drink plenty of water. Do not induce vomiting.
               Never give anything by mouth to an unconscious person.

Most important symptoms and affects, both acute and delayed
Eyes  Contact with eyes may cause mild irritation.
Skin  Prolonged or excessive contact with skin may result in mild irritation, however, significant health injuries are not expected under normal use.
Inhalation Refer to section 8 of this sheet for exposure limits. Excessive inhalation of mist may result in respiratory irritation.
Ingestion  Oral exposure is not anticipated under normal working conditions. May be harmful if swallowed.

Indication of any immediate medical attention and special treatment needed
Notes to Physician  Treat symptomatically.

5. FIRE-FIGHTING MEASURES

Flammable Properties
Material may pose fire hazard because it is dispersed (or spread) by water.

Extinguishing media
Suitable Extinguishing Media  Dry chemical. Dry chemical powder. Carbon dioxide (CO₂). Foam. Sand. Fog. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Unsuitable Extinguishing Media  Do not use a solid water stream as it may scatter and spread fire.

Special hazards arising from the substance or mixture
Hazardous Combustion Products  Thermal decomposition can lead to release of irritating gases and vapors, Carbon monoxide (CO), Carbon dioxide (CO₂), Acrolein.
Specific Hazards Arising from the Chemical  Risk of ignition. Rags and other materials containing this product may heat and spontaneously ignite, if exposed to air. Store wiping rags and similar materials in metal cans with tightly fitting lids. Cool closed containers exposed to fire with water spray.
Sensitivity to mechanical impact  No information available.
Sensitivity to static discharge  No information available.

Advice for fire-fighters
Protective Equipment and Precautions for Firefighters  As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

North America (OSHA/GHS and WHMIS Compliant)
6. ACCIDENTAL RELEASE MEASURES

Personal Precautions
Use personal protective equipment. Remove all sources of ignition. Avoid high pressure washing or generation of aerosols. Material can create slippery conditions.

Environmental Precautions
Prevent further leakage or spillage if safe to do so. Do not allow product to reach soil, sewage system or any water course.

Methods for Clean-up
Dam up. Soak up with inert absorbent material. Use dry spill kit material or sand, collect in appropriate containers. For disposal information see section 13. Clean contaminated surface thoroughly.

Other Information
Oil soaked materials may spontaneously combust.

7. HANDLING AND STORAGE

Handling
Ensure adequate ventilation. Do not use pressure to empty drums. Keep away from open flames, hot surfaces and sources of ignition.

Storage
Keep in a cool sheltered place. To maintain product quality, do not store in heat or direct sunlight.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Limits
As an airborne mist containing vegetable oil, exposure limits pertaining to "vegetable oil mist" have been provided below

<table>
<thead>
<tr>
<th>Chemical Name</th>
<th>ACGIH TLV</th>
<th>OSHA PEL</th>
<th>MEXICO</th>
<th>NIOSH</th>
</tr>
</thead>
<tbody>
<tr>
<td>Linseed oil, cobalt manganese salt</td>
<td>TVL: 10 mg/m(3)</td>
<td>Ceiling: 5 mg/m³ Mn</td>
<td>TWA: 15 mg/m³ mist, respirable fraction</td>
<td>IDLH: 500 mg/m³ Mn STEL: 3 mg/m³ Mn TWA: 1 mg/m³ Mn</td>
</tr>
<tr>
<td>vegetable oil mist</td>
<td>TVL: 10 mg/m(3)</td>
<td>TWA: 5 mg/m³ mist, respirable fraction TWA: 10 mg/m³ except irritant oils</td>
<td>TWA: 10 mg/m³ total mist TWA: 5 mg/m³ respirable mist</td>
<td></td>
</tr>
</tbody>
</table>

Engineering Measures
Ensure adequate ventilation, especially in confined areas. Apply technical measures to comply with the occupational exposure limits. However it is the duty of the user to verify this and follow given exposure limits at the workplace. Ensure that eyewash stations and safety showers are close to the workstation location.

General Hygiene Considerations
Handle in accordance with good industrial hygiene and safety practice.

Personal Protective Equipment

Eye/face Protection
If exposed to airborne mist, or if splashing is possible, appropriate safety glasses with side-shields or safety goggles are recommended.

Skin and Body Protection
Oil resistant gloves are recommended. Appropriate body protection should be selected based on activity and possible exposure. Also take into consideration the specific local conditions under which the product is used.

Respiratory Protection
In case of mist, spray or aerosol exposure wear suitable personal respiratory protection.

9. PHYSICAL AND CHEMICAL PROPERTIES

<table>
<thead>
<tr>

<tr>
<td>Flash Point</td>
<td>&gt; 99 °C / 210 °F</td>
</tr>
</tbody>
</table>
10. STABILITY AND REACTIVITY

Stability  Stable under normal conditions.
Possibility of Hazardous Reactions  None under normal processing.
Conditions to Avoid  Keep away from open flames, hot surfaces and sources of ignition.
Incompatible Materials  No materials to be especially mentioned.
Hazardous Decomposition Products  Thermal decomposition leads to formation of acrolein, Carbon monoxide (CO), Carbon dioxide (CO₂), Smoke, Fumes.

11. TOXICOLOGICAL INFORMATION

Information on toxicological effects

</tbody>
</table>
12. ECOLOGICAL INFORMATION

Ecotoxicity
Not classified for aquatic toxicity.

Persistence/Degradability
No information available.

Mobility
The product is insoluble and floats on water.

13. DISPOSAL CONSIDERATIONS

Whenever possible, as rules and regulations allow, please recycle or manage materials to minimize waste.

Waste Disposal Methods
Dispose of in compliance with the laws and regulations pertaining to this product in your jurisdiction. Oil soaked materials may spontaneously combust and should be properly managed to avoid ignition and heat sources or oxygen rich environments. Collect and store soaked materials in closed, water filled, metal containers to help prevent combustion.

Contaminated Packaging
Empty containers should be decontaminated and taken for local recycling, recovery or waste disposal.

Clean Air Act, Section 112 Hazardous Air Pollutants (HAPs) (see 40 CFR 63)
May contain trace HAPs.

State Regulations

California Proposition 65
This product is not known to contain chemicals listed under Proposition 65. This product may contain trace levels of chemicals listed under Prop. 65.

State Right-to-Know
This product may contain one or more ingredient(s) which are subject to state right to know laws. Please contact your sales representative for ingredient details if needed.

Canada

WHMIS Product Classification
Not a WHMIS controlled product.

WHMIS Ingredient Disclosure List IDL
No known component is listed on the WHMIS ingredients disclosure list at reportable levels.

(NPRI) Canadian National Pollutant Release Inventory
The product is known to contain trace levels of part 1, group 1 substances.

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the SDS contains all the information required by the CPR.

Mexico

Mexico - Grade Slight risk, Grade 1
16. OTHER INFORMATION

Original Preparation Date: 04-Jan-2010
Revision Date: 12-Feb-2014
Revision Number: 2
Reason for revision: This data sheet contains changes from the previous version in section(s) 15. This version replaces all previous versions.
