

SAFETY DATA SHEET

SECTION 1 — PRODUCT & COMPANY IDENTIFICATION

Product Name: Albatross Lily White ISO 22 Oil

Product Code: 3001, 3002, 3011, 3020, 3021, 3023 **Recommended Usage:** Paraffinic Process Oil

Restricted Usage: Not intended for any other usage

Date: 07/09/2015

Manufacturer's name and address: Refer to supplier

Supplier name and address:

ALBATROSS USA INC./EXPERT WORLDWIDE

36-41 36th Street 5439 San Fernando Road West Long Island City, New York Los Angeles, California

United States United States 11106 United States

718-392-6272 818-543-5850

Emergency Telephone #: Chemtrec (Day or Night) 800-424-9300

(For Chemical Emergency: Spill, Leak, Fire, Exposure or Accident)

SECTION 2 — HAZARDS IDENTIFICATION

2.1 Substance Details

Chemical Name CAS # %WEIGHT

LUBRICANT BASE OIL (PETROLEUM) 64742-54-7 50.0 DISTILLATES (PETROLEUM), HYDROTREATED LIGHT PARAFFINIC 64742-55-8 50.0

Products containing mineral oil with less than 3% DMSO extract as measured by IP-346.

SECTION 3 — COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Classification of the Substance or the Mixture

GHS Rating(s) : Aspiration Category 1

Signal Word : Warning

3.2 Label Elements

Precautionary: P201 Obtain Special Instructions Before Use.

P202 Do Not Handle Until All Safety Precautions Are Understood.

P281 Use Personal Protective Equipment As Required.

: P308 If Exposed Or Concerned: Get Medical Advice/Attention Response

Storage : P405 Store Locked Up.

Disposal Dispose Of Container According To Regional Regulations. : P501

3.3 Other Hazards

SECTION 4 — FIRST AID MEASURES

4.1 First Aid Measures

Eye Contact : Immediately flush eyes with plenty of water occasionally lifting the upper and lower

eyelids. Check for and remove any contact lenses. Continue to rinse for at least 20

minutes. Get Medical Attention.

Inhalation : Remove victim to fresh air and keep at rest in a position comfortable for breathing. If

> breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth to mouth resuscitation. Maintain an open airway. Get medical attention if

symptoms occur.

Ingestion : Wash out mouth with water. If material has been swallowed and the exposed person is

conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. Get

medical attention if symptoms occur.

4.2 Symptoms & Effects

To Physician : Treat symptomatically. Contact poison specialist if product has been ingested.

Special Treatment : No Specific Treatment.

4.3 Medical Attention

Protection of First Aiders: No action should be taken involving any personal risk or without suitable training, It

may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

Note to Doctor : Aspiration during swallowing or vomiting may severely damage the lungs. If evacuation

of stomach contents is necessary, use method least likely to cause aspiration.

SECTION 5 — FIRE FIGHTING MEASURES

5.1 Extinguishing Media

Suitable Media

: CO2, Dry chemical, or Foam. Water can be used to cool and protect product. Do not

Unsuitable Media use water jet as an extinguisher, it will spread the fire.

Specific Hazards

: When heated, hazardous gases may be released including: sulphur dioxide. A solid arising from this product stream of water will spread the burning material. Material creates a special hazard because it floats on water. This material creates a special hazard because it floats on water. This material is harmful to aquatic life. Any fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.

5.3 Firefighters Advice

Special protective equipment

: Fire Equipment Information: Fire-fighters should wear appriovirate protective equipment and self contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

SECTION 6 — ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment

General Measures

: No health affects expect from the cleanup of this material if contact can be avoided. Follow personal protect equipment recommendations found in section 8 of this SDS.

6.2 Environmental Precautions

Non-Emergency Personnel

: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform authorities if the product has caused environmental pollution. Water Polluting Material may be harmful to the environment if released in large quantities.

6.3 Materials & Methods to Contain and Cleanup

Reference Section 9

: Follow all protective equipment recommendations provided in Section 8.

Spill Control Measures

: Prevent the spread of any spill to minimize harm to human health and the environment of safe to do so. Wear complete and proper personal protective equipment following the recommendation of Section 8 at a minimum. Dike with suitable absorbent material like granulated clay. Dispose of according to Federal, State, Local, or Provincial regulations. Used fluid should be disposed of at a recycling center.

Containment and Cleanup

: Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillage's with non-combustible, absorbent material e.g. sand earth vermiculite or diataomaceous earth and place in container for disposal according to local regulations. Dispose of via licensed waste disposal contractor. Contaminated absorbent material may pose the same threat hazard as the spilled product.

SECTION 7 — HANDLING AND STORAGE INFORMATION

7.1 Safe Handling

Personal Protective Equipment

: Put on appropriate personal protective equipment (see section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapour or mist. Avoid release to the environment. Keep in the original container or an approved alternative made from a compatible material, keep lid tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

7.2 Safe Storage

Required conditions

: Odorous and toxic fumes may form from the decomposition of this product if stored at temperatures in excess of 113 deg F (45 deg C) for extended periods of time or if heat

sources in excess of 250 deg F (121 deg C) are used. Store away from incompatible materials. See section 10 for incompatible materials.

7.3 Specific End Use

Designed Purpose: This product is designed for use as a Paraffinic Process Oil.

SECTION 8 — EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 United States Exposure Limits

CAS	Chemical Name	Exposure Limits	Source
64742-55-8	Distillates, petroleum, hydrotreated light	5mg/m3	NLM_CI
64742-54-7	Distillates, petroleum, hydrotreated heavy	5mg/m3	IUCLID

8.2 Exposure Controls

Engineering controls: Material should be handled in enclosed vessels and equipment, in which case general room

ventilation should be sufficient. Local exhaust ventilation should be used at points where dust, mist, vapors or gases can escape into the room air. No special requirements under

ordinary conditions of use and with adequate ventilation.

Environmental Exposure Controls

: General room ventilation should be satisfactory. Local exhaust ventilation may be

necessary if misting is generated.

Eye/Face Protection: If contact is likely, safety glasses with side shields are recommended.

Skin/Hand Protection: Butyl rubber. Use nitrile or neoprene gloves. Use good industrial hygiene practices. In

case of skin contact, wash hands and arms with soap and water. Use caution when opening manway covers of storage and transportation containers. 3-nitroaniline crystals may be present on the interior surface of these openings. 3-nitroaniline is toxic by dermal

exposure.

Respiratory Protection: Use a properly fitted air purifying or supplied air respirator complying with an approved

standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working

limits of the selected respirator.

SECTION 9 — PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information On Basic Physical and Chemical Properties

Physical State: Liquid Color: B&C

Odor: Characteristic of Petroleum

Odor Threshold:No Data AvailablepH:NoData AvailableFreezing Point:No Data Available

Boiling Point/Range:No Data Available

Flash Point COC: 220C

Evaporation Rate:No Data AvailableUpper Explosive Limits (% air):No Data AvailableLower Explosive Limits (% air):No Data AvailableFlammability (solid, gas):Not ApplicableVapor Pressure:<1 mm Hg</th>

Vapor Density (air=1): >1 Relative Density: 0.84

Auto-Ignition Temperature:Not determinedDecomposition Temperature:Not determinedSolubility in Water:Negligible, 0-1%Partition coefficient, n-octanol/water:No Data Available

 Viscosity @ 40C:
 20 cst

 Viscosity @ 100C:
 4 cst

SECTION 10 — STABILITY AND REACTIVITY

10.1 Material Analysis

Reactivity:No Data Available

Chemical stability: Stable under normal circumstances

Possibility of hazardous reactions: Hazardous polymerization will not occur.

10.2 Environmental

Conditions to avoid: Temperatures above the high flash point of this combustible

material in combination with sparks, open flames, or other

sources of ignition.

Incompatible materials: Strong oxidizing agents

Hazardous decomposition products: Carbon monoxide, smoke, carbon monoxide, sulphur

oxides, aldehydes, and other petroleum decomposition products in the case of incomplete combustion. Oxides of nitrogen, phosphorus, calcium, copper, magnesium, sodium,

and hydrogen sulphide may also be present.

SECTION 11 — TOXICOLOGICAL INFORMATION

11.1 Toxicological Effects

Eye Contact

Ingestion Toxicity: No hazard in normal industrial use.

Skin Contact : This material is likely to be slightly irritating to skin

based on animal data.

Inhalation Toxicity : Non-hazardous under Respiratory Sensitization category.

: The material is likely to be irritating to eyes based on

animal data.

11.2 Inhalation Toxicity Data

CAS Chemical Name Test Value Species Source
64742-55-8 Distillates, petroleum, Inhalation 3900mg/m3 4h Rat NLM_CIP

hydrotreated light paraffinic

11.3 Dermal & Other Toxicity Data

CAS	Chemical Name	Test	Value	Species	Source
64742-55-8	Distillates, petroleum,	LC50	5000mg/L 961	Oncorhynchus	IUCLID
	hydrotreated light paraffinic				
64742-54-7	Distillates, petroleum	LC50	5000mg/L 961	Oncorhynchus	IUCLID
	hydrotreated heavy paraffinic				

Sensitizer : No data available to indicate product or components may be a skin sensitizer.

Mutagenicity: No data available to indicate product or any components present at greater than 0.1% is mutagenic or genotoxic.

Carcinogenicity: Not expected to cause cancer. This product meets the IP-

346 criteria of <3%.

Reproductive Toxicity: No data available if components greater than 0.1% may cause birth defects.

SECTION 12 — ECOLOGICAL INFORMATION

12.1 Aquatic Toxicity

Acute Aquatic Ecotoxicity : Non-hazardous under Aquatic Acute Environment category.

Chronic Aquatic Ecotoxicity : Non-hazardous under Aquatic Chronic Environment

category.

Persistence and Degradability : Biodegrades slowly.

Bioaccumulative Potential : Bioconcentration may occur.

Mobility in Soil : This material is expected to have essentially no mobility

in soil.

Results of PBT and vPvB Assessment : Not determined.

Other Adverse Effects : No data available.

12.2 Ecological Data

CAS Chemical Name Test Value **Species** Source 64742-55-8 1000mg/L 48h Daphnia magna IUCLID Distillates, petroleum, EC50 hydrotreated light paraffinic 64742-54-7 Distillates, petroleum, EC50 1000mg/L 48h Daphnia magna IUCLID hydrotreated heavy paraffinic

SECTION 13 — DISPOSAL CONSIDERATIONS

13.1 Waste Treatment

Waste Treatment Methods : Dispose of according to Federal, State, Local, or

Provincial regulations. **Disposal Methods**Recycle used oil.

Waste Disposal : Use material is non-hazardous according to

environmental regulations.

Contaminated Packaging : Recycle containers whenever possible!

SECTION 14 — TRANSPORT INFORMATION

14.1 Department of Transportation (DOT)

14.2 Shipping Description : If shipped by land in a packaging having a capacity of

> 3,500 gallons or more, the provisions of 49 CFR, Part 130 apply. (Contains oil) International Maritime Dangerous

Goods (IMDG).

: U.S. DOT compliance requirements may apply. See 49 **DOT Compliance Note**

> CFR 171.22, 23 & 25. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code Not applicable International Civil Aviation Org./International

Air Transport Assoc. (ICAO/IATA).

: U.S. DOT compliance requirements may apply. See 49 **DOT Compliance Requirement**

CFR 171.22, 23 & 24

REGULATORY INFORMATION **SECTION 15**

Chemical List Status Regulatory Agency

(TSCA)Toxic : All components are either listed or not regulated US 64742-54-7 **Substance Control Act TSCA Inventory** 64742-55-8

WHMIS Hazard Class: None

Canada CPR : This product has been classified in accordance with the hazard criteria Controlled Products

Regulations (CPR) and the SDS contains all the information required by the Regulations.
