**Engineering measures**

General room ventilation should be adequate for normal conditions of use. However, if unusual operating conditions exist, provide sufficient mechanical (general and/or local exhaust) ventilation to maintain exposure below exposure guidelines (if applicable) or below levels that cause known, suspected or apparent adverse effects.

**Personal protective equipment**

- **Respiratory protection**: No personal respiratory protective equipment normally required.
- **Eye protection**: Not required under normal conditions of use. Wear splash-proof safety goggles if material could be misted or splashed into eyes.
- **Skin and body protection**: Wear as appropriate:
  - Safety shoes
  - Wear resistant gloves (consult your safety equipment supplier).

**Hygiene measures**: General industrial hygiene practice.
