SAFETY DATA SHEET

Issuing Date 01-Jul-2015 Revision Date 30-Apr-2019 Revision Number 4

Section 1. Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product Name ZAR® Interior Oil Base Stain

Contains Kerosene, Solvent naphtha (petroleum), medium aliphatic

1.2. Relevant identified uses of the substance or mixture and uses advised against

Recommended Use Stains, Interior

Uses advised against No information available

1.3. Details of the supplier of the safety data sheet

Company

United Gilsonite Laboratories

1396 Jefferson Ave.

Dunmore PA 18509 US

Phone: 570-344-1202 Fax: 570-969-7634

Contact Phone: 570-344-1202

For further information, please contact

E-mail Address sales@ugl.com

1.4. Emergency telephone number

Emergency Telephone CHEMTREC: +1-703-527-3887 (INTERNATIONAL)

Number +1-800-424-9300 (NORTH AMERICA)

Europe 112

Section 2. Hazards identification

2.1. - Classification of the substance or mixture

REGULATION (EC) No 1272/2008

Aspiration Toxicity	Category 1
Specific Target Organ Toxicity (Repeated Exposure)	Category 1

Physical Hazards

Flammable liquids	Category 3

2.2. Label Elements

Signal Word

Danger

Hazard Statements

H304 - May be fatal if swallowed and enters airways

H372 - Causes damage to organs through prolonged or repeated exposure

H226 - Flammable liquid and vapor

EUH066 - Repeated exposure may cause skin dryness or cracking

Precautionary Statements

P260 - Do not breathe dust/fume/gas/mist/vapors/spray

P210 - Keep away from heat/sparks/open flames/hot surfaces. - No smoking

P301 + P310 - IF SWALLOWED: Immediately call a POISON CENTER or doctor/ physician

P331 - Do NOT induce vomiting

P405 - Store locked up

P501 - Dispose of contents/ container to an approved waste disposal plant

P101 - If medical advice is needed, have product container or label at hand

P102 - Keep out of reach of children

2.3. Other information

No information available

Section 3. Composition/information on ingredients

3.1. Substances

Not applicable

3.2. Mixtures

Chemical Name	EC-No	CAS-No	Weight %	EU - GHS Substance Classification	REACH No.
Solvent naphtha (petroleum), medium aliphatic	919-857-5	64742-48-9	30-60	STOT RE 1 (H372) Asp. Tox. 1 (H304)	01-2119463258-33- 0028
Iron oxide	215-168-2	1309-37-1	5-10		No data available
Raw umber	235-784-5	12713-03-0	3-7		No data available
Kerosene	232-366-4	8008-20-6	3-7	Asp. Tox. 1 (H304)	01-2119485517-27
Ferric oxide black	215-277-5	1317-61-9	1-5		No data available
Titanium dioxide	236-675-5	13463-67-7	1-5	*	No data available
Carbon black	215-609-9 435-640-3	1333-86-4	1-5		No data available

For the full text of the H-Statements mentioned in this Section, see Section 16

Section 4. First aid measures

4.1. Description of first-aid measures

General Advice Immediate medical attention is required. Show this safety data sheet to the doctor in

attendance.

Eye Contact Immediately flush with plenty of water. After initial flushing, remove any contact lenses and

continue flushing for at least 15 minutes. Keep eye wide open while rinsing. If symptoms

persist, call a physician.

Skin ContactWash off immediately with plenty of water removing all contaminated clothes and shoes.

Ingestion Aspiration hazard if swallowed - can enter lungs and cause damage. Do NOT induce

vomiting. If vomiting occurs, lean victim forward to reduce the risk of aspiration. Rinse mouth. Drink plenty of water. Never give anything by mouth to an unconscious person. If

symptoms persist, call a physician.

Inhalation Move to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial

respiration.

Protection of First-aiders Remove all sources of ignition.

4.2. Most important symptoms and effects, both acute and delayed

Most Important Symptoms/Effects Aspiration into lungs can produce severe lung damage.

4.3. Indication of immediate medical attention and special treatment needed

Notes to Physician Treat symptomatically.

Section 5. Fire-fighting measures

5.1. Extinguishing media

Suitable Extinguishing Media

Dry chemical, CO₂, water spray or regular foam.

Extinguishing media which must not be used for safety reasons

No information available.

5.2. Special hazards arising from the substance or mixture

Special exposure hazards arising from the substance or preparation itself, combustion products, resulting gases Flammable. Vapors may travel to source of ignition and flash back.

5.3. Advice for firefighters

Special protective equipment for fire-fighters

As in any fire, wear self-contained breathing apparatus and full protective gear.

Section 6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Evacuate personnel to safe areas. Ensure adequate ventilation. Use personal protective equipment. Refer to Section 8 for personal protective equipment. Avoid contact with skin, eyes and clothing. Do not touch or walk through spilled material. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Pay attention to flashback. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded.

Water spray may reduce vapor; but may not prevent ignition in closed spaces.

6.2. Environmental precautions

Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. Prevent entry into waterways, sewers, basements or confined areas.

6.3. Methods and materials for containment and cleaning up

Use clean non-sparking tools to collect absorbed material. Dike far ahead of liquid spill for later disposal. Soak up with inert absorbent material. Pick up and transfer to properly labeled containers. Dispose of contaminated material as waste according to Section 13.

6.4. Reference to other sections

See Section 12 for additional information.

Section 7. Handling and storage

7.1. Precautions for Safe Handling

Handling

Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes and clothing. Wear personal protective equipment. Avoid breathing vapors or mists. Keep away from heat, sparks and open flame. No smoking. Ensure all equipment is electrically grounded before beginning transfer operations. Use only in area provided with appropriate exhaust ventilation. Use spark-proof tools and explosion-proof equipment. Keep in an area equipped with sprinklers. Use according to package label instructions.

Hygiene Measures

When using, do not eat, drink or smoke. Provide regular cleaning of equipment, work area and clothing.

7.2. Conditions for safe storage, including any incompatibilities

Keep containers tightly closed in a dry, cool and well-ventilated place. Protect from moisture. Store locked up. Keep out of the reach of children. Store away from other materials Keep away from open flames, hot surfaces and sources of ignition. Keep in properly labeled containers. Do not store near combustible materials. Keep in an area equipped with sprinklers. Store in accordance with the particular national regulations Store in accordance with local regulations.

7.3. Specific end use(s)

Exposure Scenario

No information available.

Other Guidelines

No information available.

Section 8. Exposure controls/personal protection

8.1. Control parameters

(PNEC)

8.2. Exposure controls

Engineering Measures Ensure adequate ventilation, especially in confined areas.

Personal protective equipment Personal protection equipment should be chosen according to the CEN standards

Tightly fitting safety goggles. **Eye Protection**

Skin and Body Protection Wear protective gloves/clothing. Long sleeved clothing. Chemical resistant apron.

Impervious gloves. Antistatic boots.

Hand Protection Protective gloves.

Respiratory Protection When workers are facing concentrations above the exposure limit they must use

appropriate certified respirators.

Do not allow material to contaminate ground water system. Do not allow into any sewer, on **Environmental Exposure Controls**

the ground or into any body of water.

Section 9. Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical State Odor	Liquid Aliphatic hydrocarbons	Appearance	Brown, Dark brown
Property pH Melting Point/Range Boiling Point/Boiling Range Flash Point Evaporation rate Flammability (solid, gas) Flammability Limits in Air	Values No data available No data available No data available 40 °C / 104 °F No data available No data available No data available	Remarks/ - None known	n n n n n

WPS-UGL-001 - ZAR® Interior Oil Base Stain

9.2. Other information

VOC Content (%)
VOC (g/l)

No information available 438 (ISO 118990-2)

Section 10. Stability and reactivity

10.1. Reactivity

Not reactive under normal conditions

10.2. Chemical stability

Stable under normal conditions.

10.3. Possibility of hazardous reactions

None under normal processing.

10.4. Conditions to avoid

Heat, flames and sparks.

10.5. Incompatible materials

None known.

10.6. Hazardous decomposition products

None under normal use.

Section 11. Toxicological information

11.1. Information on toxicological effects

Acute Toxicity

Product Information

InhalationMay cause irritation of respiratory tract.Eye ContactContact with eyes may cause irritation.

Skin Contact Repeated exposure may cause skin dryness or cracking. May be harmful in contact with

skin.

Ingestion May be harmful if swallowed. Potential for aspiration if swallowed. May cause lung damage

if swallowed. Aspiration may cause pulmonary edema and pneumonitis. May be fatal if

swallowed and enters airways.

Acute Toxicity 59% of the mixture consists of ingredient(s) of unknown toxicity.

The following values are calculated based on chapter 3.1 of the GHS document:

LD50 Oral 3,728.00 mg/kg **LD50 Dermal** 2,056.00 mg/kg

Component Information

Chemical Name	LD50 Oral	LD50 Dermal	LC50 Inhalation
Iron oxide	> 10000 mg/kg (Rat)		
Kerosene	> 5000 mg/kg (Rat)	> 2000 mg/kg (Rabbit)	> 5.28 mg/L (Rat) 4 h
Carbon black	> 15400 mg/kg (Rat)	> 3 g/kg (Rabbit)	
Titanium dioxide	> 10000 mg/kg (Rat)		

Respiratory or Skin Sensitization Not expected to be a sensitizer.

Mutagenic EffectsBased on available data, the classification criteria are not met.Carcinogenic EffectsBased on available data, the classification criteria are not met.

Reproductive Toxicity

Developmental Toxicity

STOT - single exposure

STOT - repeated exposure

Based on available data, the classification criteria are not met.

Based on available data, the classification criteria are not met.

Based on available data, the classification criteria are not met.

Causes damage to organs through prolonged or repeated exposure.

Target Organ Effects Blood. Central nervous system (CNS). Eyes. Kidney. Lungs. Lymphatic system. Respiratory

system. Skin.

Aspiration Hazard Risk of serious damage to the lungs (by aspiration). May be fatal if swallowed and enters

airways.

Section 12. Ecological information

12.1. Toxicity

Ecotoxicity Effects

Contains no substances known to be hazardous to the environment or that are not degradable in waste water treatment plants.

Chemical Name	Toxicity to Algae	Toxicity to Fish	Toxicity to	Daphnia Magna (Water
			Microorganisms	Flea)
Solvent naphtha (petroleum), medium	EC50 96 h: = 450 mg/L (Pseudokirchneriella	LC50 96 h: = 800 mg/L static (Pimephales promelas)		EC50 48 h: > 100 mg/L (Daphnia magna)
aliphatic	subcapitata)	(i imophales prometas)		(Baprillia Magna)
Carbon black				EC50 24 h: > 5600 mg/L
				(Daphnia magna)

12.2. Persistence and degradability

No information available

12.3. Bioaccumulative potential

No information available.

12.4. Mobility in soil

No information available.

12.5. Results of PBT and vPvB assessment

No information available

12.6. Other adverse effects

This product does not contain any known or suspected endocrine disruptors.

Section 13. Disposal considerations

13.1. Waste treatment methods

Waste from Residues / Unused

Products

Dispose of in accordance with all European and Local regulations. Dispose of in accordance with the European Directives on waste and hazardous waste.

Contaminated Packaging

Empty containers should be taken to an approved waste handling site for recycling or disposal.

Other Information

According to the European Waste Catalogue, Waste Codes are not product specific, but application specific. Waste codes should be assigned by the user based on the application

for which the product was used.
