**SECTION 4 – FIRST AID PROCEDURES:**

**Inhalation:** Exit to fresh air. Support breathing as needed. If conditions persist, seek medical attention.

**Eyes:** Hold eyelids apart and flush eyes with plenty of water for at least 15 minutes. Seek medical attention if irritation persists.

**Skin:** Remove contaminated clothing and wash affected area with plenty of soap and water for at least 15 minutes. If redness or irritation develops, seek medical attention. Discard or decontaminate clothing before reuse.

**Ingestion:** Material is classified as non-toxic. Do not induce vomiting. Immediately rinse mouth with plenty of water. Never give anything by mouth to an unconscious person. Seek medical attention if necessary.

**Note to Physician:** Treat conditions as warranted.

**SECTION 5 – FIRE AND EXPLOSION HAZARD DATA:**

**FLASH POINT (Method Used):** NA This product is nonflammable and will not support combustion.

**FLAMMABLE LIMITS:** **LEL:** NA **UEL:** NA

**AUTOIGNITION TEMPERATURE:** NA

**EXTINGUISHING MEDIA:** Use extinguishing media appropriate for surrounding fire including carbon dioxide, dry chemical, foam, halon, or water mist.

**SPECIAL FIRE FIGHTING PROCEDURES:** Wear appropriate protection for the surrounding fire. When fighting chemical fires wear self-contained breathing apparatus and full protective clothing. Do not release runoff to sewers and waterways.

**UNUSUAL FIRE AND EXPLOSION HAZARDS:** When subjected to heat, sparks, and flames toxic gases, including hydrocarbon combustion products such as CO/CO<sub>2</sub>, may be released.

**SECTION 6 – ACCIDENTAL RELEASE MEASURES:****STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED:**

Caution: This material is a liquid and is slippery on surfaces. Prevent material from spilling on floors. Do not leave spills on floors unattended. Barricade spill area until cleanup is complete. Avoid stepping in spilled material.

Stop the source of the spill. Contain the spill using appropriate spill containment materials including absorbents such as paper and cloth towels. For larger spills utilized sand, vermiculite or other inert material. Clean spill area with soap and water. Rinse thoroughly to prevent surface from remaining slippery.

If material has dried, during clean up of dried material avoid creating airborne dust (e.g., use wet methods, or HEPA vacuum).

Where product is dry and may become airborne utilize appropriate personal protective equipment such as a NIOSH approved air-purifying respirator equipped with filters approved for particulates, and protective clothing. For dry product, prevent the spread of the material and keep dust levels to a minimum.

**SECTION 6 – ACCIDENTAL RELEASE MEASURES (Cont.):**

Wet the dried material, scoop up, vacuum or mop the material, and place it into closed containers for reuse or disposal. Once material is swept up, the area may be rinsed with water.

If an emergency situation exists, contact spill response personnel.

CERCLA Reportable Quantity: No ingredient is listed.

**SECTION 7 – PRECAUTIONS FOR SAFE HANDLING AND USE:****PRECAUTIONS TO BE TAKEN IN HANDLING AND STORAGE:**

When not in use, store in tightly closed containers in a dry, cool area. If material has dried out properly dispose and replace with new product. Keep floors clean and dry. Use only with adequate ventilation that keeps dust/mist levels below the permissible exposure limit (PEL). Handle so as not to create airborne dust. Avoid breathing airborne product.

Do not store with oxidizing agents.

Handle with care. Avoid unnecessary eye and prolonged skin contact. Wash thoroughly after handling. Keep this and all chemicals out of reach of children.

**PRECAUTIONS TO BE DURING REPAIR AND MAINTENANCE:** Not Applicable

**OTHER PRECAUTIONS:** Do not allow material to dry out. Keep material from direct sunlight. Keep work surfaces clean.

Work on newspaper or paper towels for easy cleanup. Clean surfaces with wet sponge, rinsing frequently.

**SECTION 8 – CONTROL MEASURES/PERSONAL PROTECTION:****VENTILATION:**

**Local Exhaust:** If necessary, use enclosures with local exhaust ventilation to keep exposures below PELs.

**Mechanical:** If necessary to keep mist/dust levels below PELs. Recommended for confined areas.

**Special:** NA.

**Other:** NA

**RESPIRATORY PROTECTION (Specify Type):** Under normal conditions of use no respiratory protection is needed.

Where exposure above the OSHA PEL is likely, utilize a NIOSH approved N-95 dust mask, or a half-mask or full-facepiece air-purifying respirator (APR) equipped with filters approved for particulate and mist (P100). Additional protection (e.g., SCBA) may be required for emergencies or in designated areas (e.g., confined areas). APRs do not protect workers in oxygen deficient atmospheres.

**PROTECTIVE GLOVES:** No hand protection is needed under normal conditions of use. During extended periods of use when excessive skin contact is likely, wear appropriate gloves to protect from liquid.

**EYE PROTECTION:** Safety glasses with side shields or goggles.

**OTHER PROTECTIVE CLOTHING OR EQUIPMENT:** No skin protection is needed under normal conditions of use. During extended periods of use when excessive skin contact is likely, wear appropriate equipment to protect skin.

**SAFETY STATIONS:** Make available in the work area emergency eyewash stations and washing facilities.

**WORK/HYGIENIC PRACTICES:** Avoid skin and eye contact. Avoid breathing mist and dust of dried material. Practice good personal hygiene. Do not eat, drink, smoke, or apply cosmetics in work areas. Wash face and hands prior to eating, drinking or other hand-to-mouth activities. Launder contaminated clothing before reuse.
