**8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

CAS #	Chemical Name	Jurisdiction	Recommended Exposure Limits	Notations
8006-64-2	Turpentine {Gumspirits}	ACGIH TLV OSHA PELs	TLV: 20 ppm PEL: 100 ppm	
<b>Respiratory Equipment (Specify Type):</b>	For occasional consumer use - Use with adequate ventilation to prevent a build-up of vapors in confined areas. Open windows or position fans to provide cross ventilation. If a mild to strong odor is noticeable, ventilation is not adequate.			
	For OSHA controlled workplace and other regular users - Use only with adequate ventilation under engineered air control systems designed to prevent exceeding appropriate TLVs.			
	For occasional use, where engineered air control is not feasible, use properly maintained and properly fitted NIOSH approved respirators. A dust mask does not provide protection against vapors.			
<b>Eye Protection:</b>	Safety glasses, chemical goggles, or face shields are recommended to safeguard against potential eye contact, irritation, or injury. Contact lenses should not be worn while working with chemicals.			
<b>Protective Gloves:</b>	Wear impermeable gloves. Gloves contaminated with product should be discarded.			
<b>Other Protective Clothing:</b>	Various application methods can dictate use of additional protective safety equipment, such as impermeable aprons, etc., to minimize exposure.			
<b>Engineering Controls (Ventilation etc.):</b>	Use only with adequate ventilation to prevent buildup of vapors. Do not use in areas where vapors can accumulate and concentrate, such as basements, bathrooms or small enclosed areas. Whenever possible, use outdoors in an open air area. If using indoors open all windows and doors and maintain a cross ventilation of moving fresh air across the work area. If strong odor is noticed or you experience slight dizziness, headache, nausea or eye-watering -- STOP -- ventilation is inadequate. Leave area immediately and move to fresh air.			
<b>Work/Hygienic/Maintenance Practices:</b>	Wash hands thoroughly after use and before eating, drinking, or smoking.			
	Clothing that becomes soiled with product should be removed as soon as possible and laundered separately.			
	A source of clean water should be available in the work area for flushing of eyes and skin.
